Only 10 Miles of Paved Streets

Hope's Cost Is Lowest of All

Syd McMath, chairman of the city council's finance committee, told the Rotary club Friday about a standing offer by the City of Hope to pay one-third of the property owners' expense in any new paving project undertaken at this time. My recollection is that the last checkup showed Hope to have 10 miles of paved streets. . . . We had that much as a city of 6,008 population; but as a city of 7,477, 25 per cent larger, we need 25 per cent more paving too.

The cost under present circumstances is phenomenally low.

In a speech this week at Little Rock the capital city mayor, Mr. Satterfield, told his constituents that under WPA project terms Little Rock property owners could build \$160,000 worth of street-paving for \$68,000.

But Little Rock has no municipal light plant, and Little Rock is unable to make the further offer that Hope is making—to take advantage of the federal WPA program and at the same time pay one-third of the property owner's costs under WPA.

It is obvious that with City of Hope and WPA aid combined the present cost of new paving here is about one-third the cost of the original paving, constructed through improvement districts and paid for 100 per cent by the property owners.

Formation of a paving district, with special engineers, attorneys and other expense, was necessary in former days when the entire cost of the street fell upon property owners.

But today it is possible to pave streets without organizing a district, because of the vast reduction in expense through the offers of WPA and the City of Hope.

However, whether with a district or without it, Hope's property owners should be prompt to take advantage of this chance to lift their city out of summer dust and winter mud. There is ample justice in the city's aid offer, for the benefits of street paving are as great to motor car owners as they are to the home-owner seeking comfort in a traffic-mad world.

## Model Homes Are Open to Public

Public Is Invited to Inspect New FHA Homes

Two new attractive FHA model homes, 1022 and 1024 South Walnut street, constructed by R. T. White & Co., will be open for inspection Saturday and Sunday June 1 and 2.

The houses are white clapboard with desirable sized rooms and are appealing and attractive. They have hardwood floors, automatic hot water heaters, large closets, latest electrical fixtures, wall sockets, floor furnaces and are modern in every detail.

All materials, roofing, plumbing and fixtures have been inspected and approved by FHIA officials and are now for sale.

The public is invited.

## Mess Call! and the United States Army Stops Off in Hope to Spend the Night

These scenes were shot in Fair park at 5 o'clock Wednesday afternoon as 360 men of the Sixth Army Engineer Battalion, Captain Paschal N. Strong commanding, made an overnight stop in Hope returning from the Army war games at Alexandria, La., to their home station, Fort Riley, Kan. The photographs, all being of men and not equipment, were made with official permission.

## Mrs. E. M. Ellis Dies at Saratoga

Hempstead County Pioneer Succumbs Late Friday

Mrs. Carrie Mae Ellis, 95, pioneer Hempstead county, Ark., died Friday at the home of Mrs. Joe Bland of Saratoga, Ark.

She was the widow of James W. Ellis, state representative for seven successive terms shortly after the civil war for the district which embraces Hempstead county. Her husband died about 15 years ago.

Surviving are, a son, J. D. Ellis of Texarkana; 17 grandchildren, 39 great grandchildren and 13 great great grandchildren.

Brief funeral services will be held at 1:30 p. m. Sunday at the Bowden

## Believe Call Near for Nat'l Guard

Demand at Least 60 Days Service on Any Call

LITTLE ROCK—An immediate call that would send the Arkansas National Guard into active service may be imminent, Adj. Gen. Dan B. Byrd said Friday.

Disclosing that he had known for 10 days that such a move was contemplated, General Byrd said at his home in Clarksville:

"If we receive a call into active service Saturday or any other day soon I would not be surprised. The Arkansas Guard is prepared to answer any order received from the president."

His statement was inspired by President Roosevelt's request Friday for authority of congress to call the guardsmen and reserve personnel of

## French Holding in Battle of Somme; Saturday's Claim

Germans Say They Have Taken Million Prisoners

### FLANDERS RESCUE

Greatest Rescue in History, British Declare

#### BULLETIN

BERLIN (AP) — An authorized German spokesman said Saturday the battleship Nelson, 35,500-ton flagship of the British home fleet, had been sunk with the loss of 700 of her crew of 1,320.

The Nelson is Britain's biggest battleship. The British admitted last February she was damaged by a mine. Refitted, she rejoined the fleet in March. She was built in 1927 at a cost of about \$37,500,000.

By the Associated Press

The German forces wheeled Saturday in an attack on the Somme river—the Allies' line guarding Paris—as the battle-stained Allied troops snatched from the Nazi death trap in Flanders reached safety in England.

The French said they held against the Nazi onslaught on the south bank of the lower Somme in a battle launched by the Germans Friday, resumed at dawn Saturday and still going on.

A bridgehead at which the French were established on the north side of the river bore the brunt of the German assault. The Nazis struck also against French positions on the south bank.

This marked a new phase of the war. The Allies expected, and Germany had hinted, a Nazi attempt to roll down on France before any attempt to invade England.

Italy hovered on the sidelines, apparently drawing steadily closer to a decision which might send her armies northward while the Germans pushed southward in a gigantic pincer on France.

#### Italy and Spain

Italy called up ten thousand non-commissioned officers Saturday to supplement a force of 50,000, while in both Italy and Spain clamor grew for the British to relinquish Gibraltar.

The reckoning varied in what the British called the greatest rescue in military history.

Unofficial British estimates that three-fourths of the BEF had reached Britain meant 130,000 to 140,000 of the 175,000 sent over to face the Nazi blitzkrieg had been rescued. The Germans claimed they had, or would have, a million prisoners.

The German high command said Nazi fliers had sunk five transports, damaged three warships, and ten merchantmen, in Dunkerque. They said speed boats also sank an Allied destroyer and a submarine.

In the air the Germans said the score Friday was 49 Allied planes lost to nine German planes missing.

The British claimed they shot down or damaged 66 German planes and lost only 19 of their own.

By LOUIS LOCHNER

With the German army at the front — (AP) — The Germans estimated Saturday they have one million Allied prisoners, not counting Belgians and Dutch, or will have after the present operation is ended in northern France and Belgium.

#### Italy to Fight

ROME (AP) — Italy kept Britain and France guessing again Friday but the fact that she is going to strike was emphasized by the leading Italian foreign affairs commentary, Internationali Relazioni, which asserted in an editorial to be published Saturday:

"France and Britain have rejected the demands of the Italian people; these demands will be enforced by arms. The hour longed for for more than 50 years has come. The Italian people will fight the French and British enemy with extreme determination to complete victory."

"London and Paris have not yet grasped it that the present crisis is a tremendous revolution of peoples who achieved their distinctive but energetic and renewing ideals of the revolution of Mussolini and Hitler. A new Europe arises on an indissoluble and balancing contact of Romanism and Germanism, two forces which are destined

## Plans Made for Highway 4 Ass'n

Chambers of Commerce Push East-West Highway

Plans are under way to organize a State Highway No. 4 Association to emphasize the importance of this road and to seek state and federal funds for its improvement.

Highway No. 4 begins at the west end of Arkansas and extends clear across the state, connecting DeQueen, Nashville, Hope, Camden, Warden, Monticello and McGehee. Chambers of Commerce in all these towns have pledged their cooperation in getting an organization to sponsor improvement of this highway.

A meeting will be called in June of this year, when representatives of all towns located on this highway will meet to make plans for a permanent organization.

This road is one of vital importance to Hope, as it will, when improved, give us an East-West traffic comparable to the North-South traffic on U. S. No. 67.

Argentine natives make butter by dragging cream in a skin bag behind a rider on horseback.

## Evening Shade to Have a Pie Supper

A pie supper will be held at the Evening Shade church house Tuesday June 4 at 8 p. m. The public is invited.

## Let 4 Contracts on No. 1 Highway

North-South Road in East Arkansas Is Improved

LITTLE ROCK—Four contracts for improvement of state Highway 1, widely traveled north-south road in eastern Arkansas, were awarded together with four other construction contracts, by the State Highway Commission Friday. The cost will be \$350,000.

## Social Calendar

Monday, June 3

Troop 4, Girl Scouts, the "Little House," 2 o'clock. Mothers and members urged to be present. Women's Missionary Society of the First Baptist Church, Business meeting. All officers especially urged to be present. Time has been changed from 2:30 to 4 o'clock. Joe Vasey, Circle of the Women's Missionary Society of the Methodist church at home of Mrs. D. M. Finley with Miss Ruth Taylor and Mrs. William McGill, 7:45 p. m. Circle No. 1 of the Women's Missionary Society of the Methodist Church home of Mrs. H. H. Stuart 3 o'clock. Circle No. 2, Women's Society for Christian Service, First Methodist church, will meet Monday afternoon at 2 o'clock at home of Mrs. E. P. O'Neal with Mrs. N. P. O'Neal as joint hostess. Opening of Mrs. Robert Campbell's school of piano and violin instruction. Meeting of the Executive Board of the Ladies Auxiliary of the Presbyterian Church, the church, 4 o'clock. Circle No. 4 of the W. M. S. of the Methodist Church, with Mrs. Snyder at the Snyder Hotel, 3 o'clock. Postponement. The annual program of the United Daughters of the Confederacy that was to have been held at Washington, June 2, has been indefinitely postponed.

## Mrs. Ralph Routon Has Annual Spring Reveal

Mrs. Ralph Routon presented a group of piano and voice students in a recital at the City Hall Auditorium on Friday night. A particularly attractive stage picture was created with the color of pink predominating. Baskets of pink sweet peas, larkspur, and roses were noted on each side of the stage. The following program was presented: Oriental Bezaar—Patricia Ellen. Mazurka in E flat—Matilda McFadden. Under the Leaves—Frances Harrell. Water-Nymph—George Newbern, III. Indian Summer—Roselyn Hall. Moonbeams—Dorothy Moore. On the Ice—Doris Urey. Cotton Pickers—Norma Jean Archer. Rainbow—Betty Jo Melvin. The Swan—Barbara LaGrone. By Sparkling Brooks—Eva Jean Milam. Wood Nymph's Hark—Carolyn Hamilton. Memories—Jessie Claire Brown. Under Southern Skies—Jo Ann Card. Spanish Dance—Gwendolyn Evans. Lullaby—Betty Ruth Coleman. Holland Festival—Mary Roy Moses. Star Sapphires—Marjorie O'Neal. Carmencita—Nancy Joe Coleman. Bird Chatter—Dorothy O'Neal. Medley—Betty Ann Benson. Medley Strauss Waltzes—Mary Ross Fadden. In a Persian Market—Paul O'Neal. Veil Dance—Mary Lee Cook. The Sea Nymph—Mary Lee Cook. In the Meadow—Kinard Young. Venetian Love Song—Peggy McNeill. Rustle of Spring—Virginia O'Neal. Voice: L'Amour-Toeyours-L'Amour At Dawning—Martha Houston. Hungarian Dance No. 5—Claudia Agee. Chopin Valse—Brilliant—Helen Crews. The ushers were: Miss Marie Antiochette Williams, Miss Nancy Robins, Miss Mary Wilson, Miss Marjorie Dill, Miss Lottie Joyce, Miss Carolyn Barr, and Miss Nancy Hill.

## Announcement

Miss Kathleen Johnson will present her pupils of Fulton in a piano recital Monday evening at 8 o'clock at the Union Church in Fulton. She will be assisted by her nephew, William R. Orton Jr. The public is invited.

## Ennion Club at the Roy Anderson's

Mr. and Mrs. Roy Anderson entertained the members of the Ennion Club on Friday night. For the occasion, the hospitable Anderson home was decorated with spring garden flowers including roses, poppies, and sweet peas in beautiful "figureds." After a delightful supper, the guests indulged in a number of exciting games of bridge.

## Mrs. Oliver Adams Has Bridge Party

Mrs. Oliver Adams was hostess to a number of her friends on Friday afternoon. An abundance of spring flowers in beautiful containers were used in decorating the rooms where two tables were arranged for the players. At the close of the games prizes were awarded to the winners. Mrs. George Robinson made the high score and also was awarded the traveling prize. A lovely gift was awarded Mrs. R. L. Broach, who made the next highest score. The hostess served a salad and dessert course with a delicious iced drink. Mrs. Lamar Cox and Mrs. George Ware were tax guests.

## Miss Porter Graduates from Baptist Hospital

Miss Dorothy Helen Porter, daughter of Mr. and Mrs. Frank Porter of this city, is one of the recent graduates of the School of Nursing, Baptist State Hospital, in Little Rock. The ceremony was held at the Immanuel Baptist Church on May 30.

## Mrs. Wyatt Hostess To Club on Friday

Mrs. Cecil Wyatt entertained the members of her bridge club at her bridge club at her home on Friday afternoon. Mrs. Lawrence Martin won the club prize and Mrs. Finley Ward was awarded the guest prize. The other guests were Mrs. Vincent Foster, and Mrs. Kelley Bryant. At the conclusion of the games, the

hostess served a delicious ice course with cake.

## Personal Mention

Miss Mable Eldridge and Mrs. Young Foster are Saturday visitors in Shreveport.

Mr. and Mrs. Syd McMath and son, Sydney, will leave Monday for Baton Rouge, Louisiana, to attend the graduating exercises of Louisiana State University, where Mrs. McMath's brother, Mr. Maurice M. Vick, will receive his Ph. D. degree. From Baton Rouge they will continue on a vacation trip to New Orleans and points in Florida.

Mrs. Oma Miller of Paris, Texas, Mrs. J. W. Conthay and Mrs. H. L. Henley of Texarkana were Thursday guests of Mrs. Fulton Helms.

Mrs. V. C. Stephens of Gurdon has returned to her home after a visit with her parents, Mr. and Mrs. D. W. Bryon.

Mr. Harvey Barr has arrived in Hope for a vacation with his parents, Mr. and Mrs. Barr. He is a recent graduate of Arkansas College at Batesville.

Colonel Charles Garrett of El Dorado is the weekend guest of his mother, Mrs. J. F. Garrett.

Miss Katherine Ann Baker of Little Rock is the guest of her grandmother, Mrs. B. C. Acker.

Miss Elsie Weisenberger, County Librarian, will leave Sunday for Norman, Oklahoma, where she will take summer courses in Library Science at the University of Oklahoma. She will return to Hope on August 1st. Until her return the library will be operated by her present assistants.

Mrs. Zeylon Holly and small son have returned from a visit with Mr. Holly at the University of Arkansas, Fayetteville.

Mr. Charles Crutchfield returned home Friday night from Houston, Texas, where he has been attending Rice Institute.

Mr. and Mrs. W. C. Langford (Ruth Fleming) of Gibsland, Louisiana are spending a few days at the Hotel Henry.

Mr. and Mrs. Grover Milford of Texarkana will be the Sunday guests of Mr. and Mrs. Robert Campbell.

Miss Lenora Routon of Shreveport will be the Sunday guest of her mother Mrs. Ralph Routon and other

relatives. Mr. and Mrs. W. H. Winn of Houston, Texas are the guests of Mr. and Mrs. Jim Wilson Jr. of Columbus.

Mr. Ralph Owen of Shreveport will arrive Sunday for a visit with his parents, Mr. and Mrs. John Owen.

Mrs. Al Park left Friday night for Vicksburg, Mississippi, where she will join Mr. Park.

Mr. and Mrs. Dillard Breeding will leave Sunday for Alexandria, Louisiana, where they will make their new home.

Mr. and Mrs. Dale Jones, and Mr. and Mrs. C. V. Nunn and son, C. V. Jr. were Thursday visitors in Little Rock.

## Jim Wilson Again Wins Skeet Shoot

### Hits 49 Out of 50 to Win, Robins Is Runner-up

Jim Wilson again won high score at the skeet shoot at the Wilson skeet club in Columbus Friday with a score of 49 out of 50. Bill Robins of Hope was runner up with a score of 45. The scores were as follows:

Shot at 50	
Jim Wilson	49

## Object to Plans for Red Broadcast

NEW YORK (AP)—Protesting an announced broadcast Sunday of the American Communist party's conven-

## OUT OUR WAY

tion proceedings, officials of a radio chain an da former congressman demanded Friday that the government ban Communists from the nation's radio lanes.

The Columbia Broadcasting System urged revision of the communications law "so that no broadcaster is compelled to give time to the candidates of any political party if it is proven to be subservient to a foreign power." CBS is one of three chains scheduling the Sunday broadcast of a speech by Earl Browder, general secretary of the Communist party who is expected to be nominated for the presidency. Under present radio laws, it said, radio companies were forced to "treat all candidates for public office alike."

Station WCKY in Cincinnati decided to drop out of the CBS network for the 15 minutes allotted to the Communist program, substituting a program of patriotic music. WCAU at Philadelphia also refuse to broadcast the speech.

L. B. Wilson, president of WCKY, said: "This is the time to tighten our national defenses everywhere. We are certain it is not in the public interest to broadcast pro-Nazi, pro-Communist speeches at this time."

## WE THE WOMEN

By RUTH MILLETT

A tiny, fragile looking blonde, whose own modeling career ended when she married the boss, has for the last six years watched hundreds of other young pretty girls turn into glamorous models whose faces and figures are known to the whole country. As she has watched and helped them in their careers, pointing out tricks of the trade to new-comers, she has learned a lot about the girls themselves.

The tiny blonde is Mrs. Walter Thornton, whose husband (and boss during her working hours) is head of one of New York's best known model agencies.

Judy Thornton knows that the girl who poses for eye-catching advertisement has the same major ambition as the girl who sees the ad and both want to get married.

## She Applies Modeling Lessons Around Her Home

Walter Thornton's chief assistant, called the "perfect miniature" in her own modeling days, thinks the average model has a good chance of turning into a model wife. "To begin with," she says "the model has had to learn how to make the very most of her looks. She knows how to apply make-up becomingly, how to dress, how to walk. A husband appreciates having his wife make favorable first impression—as a girl who has been a good model is bound to do.

"Then, too, the model knows quite a lot about getting along with men. She has worked with them on hurry-up jobs and hard jobs and has gotten the hang of how they think.

"A model knows the importance of looking pleasant, happy, and alive. Knowing the money value of a smile, as she does, it isn't likely that she will ever go around looking sour-faced. And a smiling disposition is certainly an important asset to a wife.

"A model also learns a lot about what people like. She sees in a short while that the artificial type is easily tired of, while the sweeter type keeps on appealing year after year. If she has any brains at all she will apply this knowledge to her private, as well as her professional, life.

"And since a model's job is fairly easy and considered glamorous, a model isn't likely to rush into marriage the way so many girls do, just in order to have someone support her. She usually waits until

she has made up her mind that the right man has come along."

## Her Daughter Follows in Steps

The small blonde stopped talking about grown-up models long enough to tell me that her own small daughter occasionally was pressed into modeling jobs, when a pretty, fair-haired child was needed in a hurry.

Then, seeing that the interview was over she put a question herself. "How does it happen," she said, "that you haven't asked me if I am jealous, since my husband deals in feminine beauty? Almost everyone I meet asks me that."

"Because," I answered, "a model wife could answer that question in only one way."

## Travelers Get 21 Hits Off Barons

### Little Rock Slugs Way to the First Division

LITTLE ROCK—With Catcher Fred Walters setting the pace with four hits in as many times at bat, the Travelers slugged their way into first division by downing the Birmingham Barons, 12 to 7 in a 35-hit bat-for-all last night. The victory gave Little Rock the series and dropped the Barons into sixth place.

The Travelers tagged Charles Baurers, Pete Naktelski and Manager Ira Smith for 21 blows including eight for extra bases. Walters got a double and a triple and Leroy Schalk smacked three doubles. Tommy Irwin, who played a brilliant game at shortstop, got a triple and Willie Duke and Tommy Reed, a two-bagger apiece. Every Traveler got at least one hit.

Bill Sayles, out with a sore arm since early in the season, made his second start of the year and went the route. Although Sayles was nipped for 14 hits six of them came in the last two innings when the big right-handed could afford to coast behind a fat lead. Birmingham's first three runs off Sayles in the fourth inning were unearned.

## Victor Keith's Art Work Is Exhibited

Victor Keith of Patmos has many of the drawings, designs and decorative problems, which he has rendered during the past year, hanging in the annual exhibition of students' work in the Chicago Academy of Fine Arts. Mr. Keith is this year equipping himself in the broad essentials of art training so that his specialized study next year will carry him into a definitely practical application of these art fundamentals, expecting to join the ranks of those professional

she has made up her mind that the right man has come along."

## Softball Games

Week Beginning June 3, 1940

Monday—McRae Millers vs. Allison Termites.

Tuesday—Bruner Ladies vs. Snow White.

Wednesday—Brookwood Grocery vs. CCC Team. Second game—Brookwood Grocery vs. McRae Millers.

Thursday—Bruner-Ivory vs. Out of town team.

Friday—CCC Team vs. Allison Termites. Second game—Snow White vs. McRae Millers.

All doubleheaders begin at 7:30 o'clock and single games at 7:45.

Brookwood Grocery defeated Snow White Friday night.

## Comparing Thermometers

To change a plus centigrade temperature to Fahrenheit, multiply it by nine-fifths and add 32. If it is a minus centigrade temperature, multiply it by nine-fifths and subtract 32.

## Robins Team to Play Okay Sunday

### Elliot and Russell to Pitch Against Okay Team

After switching some of the regular players and adding several youngsters which was caused by injuries out of control, Manager Raymond (B) Elliot is well pleased with the way the new team is shaping up and hopes to whip the strong Okay team in a double header to be played at Okay Sunday.

Blackie Elliot is slated to pitch the opener and A. D. Russell the night cap.

The veteran Jimmie Cook has signed to play with the Robins team.

Bob White, former player on the American Legion team is holding down the short stop position like a veteran. This team is operating under the rules of the Arkansas Federation of Baseball and its main object is to develop young ball players and no cash compensation is paid to any player. The Hope Robins will give any boy in Hempstead county a chance to play ball under these conditions:

The line up for the games Sunday is as follows: J. Cook cf; A. Slayton 2b; G. Williams 1b; O. Reeves c; R. Urban 3b; A. Russell, lf; B. White ss; D. Parsons rf; B. Elliott p.

## Good Saturation Is Found in Lafayette

STAMPS, Ark.—Operations "cored from 9125 to 9141 feet Friday at the Atlantic Refining company-Bodway Lumber company No. 1 wildcat well in section 23-17-22, Lafayette county, and obtained nine feet of core showing what was described as excellent saturation.

The well is in the McKamey area about eight miles south of Stamps.

Plans were to core through the saturated formation at the deep level, then to set production casing. Top of the porosity was reached at around 9100 feet.

# Plastic Plane May Be Key to Mass Production

**By BILL PORTER**  
**Service Staff Correspondent**  
**LOS ANGELES**—The key to the mass production of national defense and the production of 50,000 fighting ships may turn out to be a plastic plane.

They have just flown one out here from the oven.

Molded and baked, lighter, cheaper, more quickly assembled, this plane is the aviation industry's first plastic airplane. Both previous time and costly materials are saved with the revolutionary development.

The plastic plane, moreover, lends it self particularly to wartime use; the plastic is impervious to water and oil and highly resistant to fire. An oxy-acetylene torch held on the material does not even scar it. And the saving in weight means greater bomb loads. Minor repairs may also be made in the field by a simple process.

## May Open up Bottleneck

Months of research behind closed doors have made this startling new plane possible. The first plastic plane, however, was designed by Col. V. W. Clark, two years ago. Clark was chief of the army's aviation engineering during the World War.

Designer of the ship just tested is Walter A. Hite, chief engineer of Timm Aircraft Corp. The ship is an open tandem, two-place, military type primary trainer with a wing spread of 32 feet. It is 24 feet 10 inches long and 7 feet 9 inches high. Empty, the plane weighs 1435 pounds, with a load capacity of 515 pounds. Maximum speed is 140 miles while the plane cruises at 123 miles, but much greater speeds may be attained with larger motors.

One of the worst bottlenecks of the airplane industry, long prohibiting mass production, has been assembly. Building wing shells and covering them with metal "skin," building and covering the fuselage, is a slow and delicate job requiring highly skilled workmen.

It takes an average of four hours to buckle one square foot of "skin" on a plane. A crew requires from four to six working days to build the complete structure of a wing. The largest airplane plant in the United States took 13 months to complete one order of 600 planes for the allies.

Not so for the plastic plane. After ordinary spruce is used to build a form, giving the plane its rough shape, and each layer is coated with a phenolic resin plastic, the plane is then placed under terrific pressure and baked in huge ovens. The pressure causes the plastic to impregnate each layer of spruce and so solidify the structure into one firm mass.

The planes are then made in sections and quickly fitted together. Construction is so simple large-scale mass production would be easy, according to R. A. Powell, general manager of the Timm corporation.

Nearly Perfect Aerodynamically.

A successful plastic plane could be assembled as fast as motors and parts were supplied. One aviation authority estimates 200 men with 10 sets of plastic molds could build wings, fuselage and tail parts for 300 planes a month, in a factory area equal to one average city block. Step that up to 100 times and 200 men and you have a reasonable potential production of 30,000 planes a year.

And because of mass production and materials these planes would be considerably cheaper, perhaps 25 per cent less. Materials are common, easily obtained, and in some cases exceptionally low-priced.

Finally, the plastic plane proves to be more nearly perfect aerodynamically. It has excellent structural, "torsional" strength and absolutely smooth surface. It attains 7 per cent greater speed because it weighs 20 per cent less than other planes of comparable size. These are factors of tremendous military importance.

## Man Bites Fly

**FAIRBANKS, Alaska**—(P)—Walter Hansen was fishing with a line rigged with two hooks. A big rainbow trout took one portion of the tackle. Hansen jerked on the line so hard the empty fly whizzed upward and landed in his mouth and the hook went into his lip. Hansen fell in the creek, but got his fish before he disentangled the fly from his mouth.

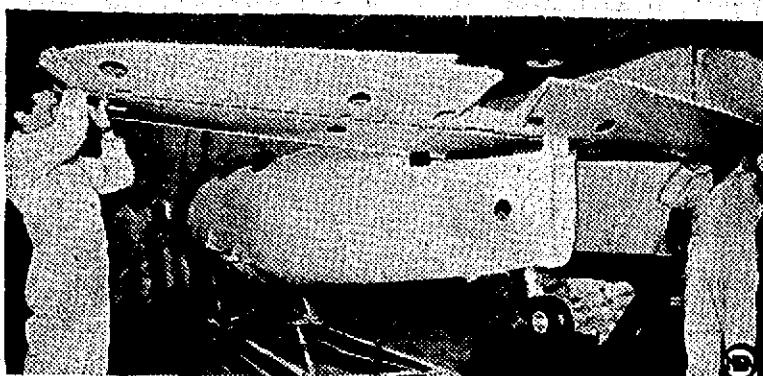

Powder, two liquids mixed . . .

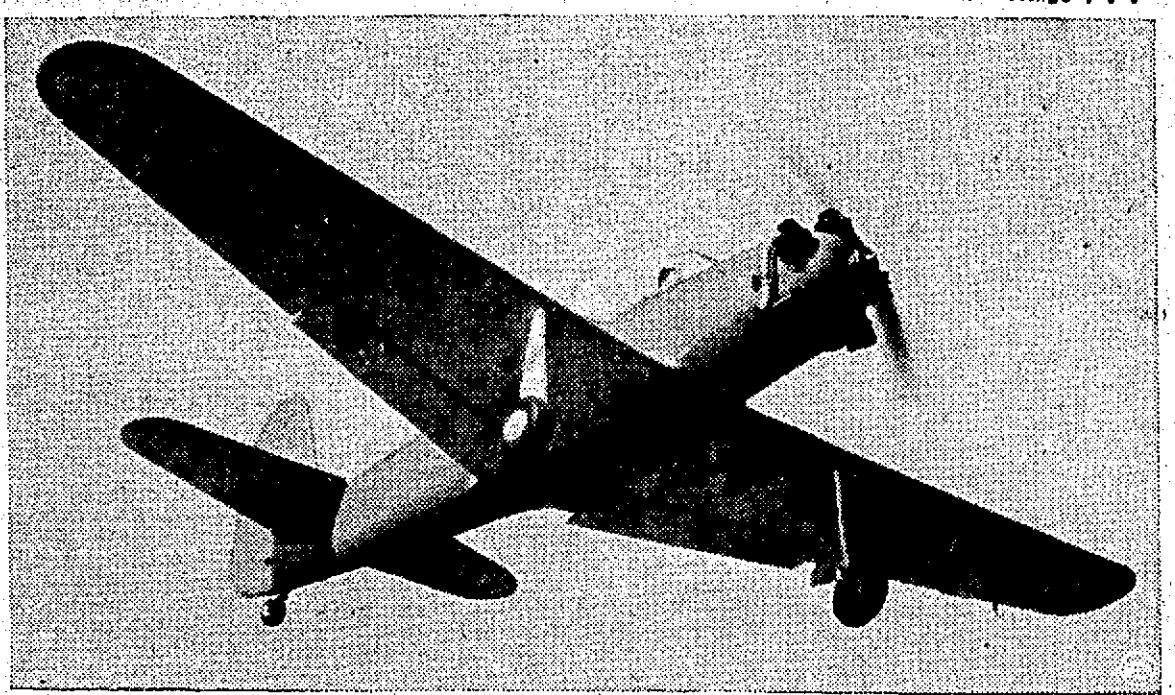

The plastic is sprayed on . . .

A fuselage is wheeled into an oven to be baked . . .

Both sections molded, a tail piece is fitted to a fuselage . . .

The Timm plastic plane in flight

Photos show steps in making a plastic plane. Forms are made of ordinary spruce wood over which spruce plies one twenty-fifth of an inch thick are laid so that the grains of the layers criss-cross. A coat of phenolic resin plastic liquid is sprayed on each layer. This plastic is similar to bakelite. The plane new has its rough shape and is ready for baking in huge ovens under tremendous pressure. The pressure causes the plastic to impregnate each layer of spruce and solidifies the whole structure into a strong but somewhat elastic mass. After baking, the plane sections are quickly fitted together to form the final smooth, light shell, well high perfect aerodynamically. The fuselage is molded in just two matching halves and the absence of rivets and seams means added speed. So simple is this construction that many aviation experts believe mass production is possible—and soon.

## CHURCH NEWS

### FIRST CHRISTIAN

North Main at West Avenue B  
 John Keith Gregory, Minister

9:45 a. m. Bible school.  
 11 o'clock, morning worship service, "The Church, Its Ministry and Message."  
 7 p. m. Junior Christian Endeavor Society.  
 7:45 o'clock, evening worship service, "What's in a Name?"

### FIRST BAPTIST

William R. Hamilton, Pastor.

"Doing, Or Believing and Doing?" will be the Pastor's subject at the 10:35 Service Sunday morning. We are happy that Christ is using our testimony in the saving of the lost. It is our prayer that many will accept Christ at the Sunday services. The unsaved are especially invited to come and hear God's invitation to them. Sunday school assemblies by departments at 9:45. The average attendance of 407 during May should be surpassed this month. All who are not regularly attending some other Sunday School are invited to First Baptist.

"The Greatest Power in the World Today" will be the subject of the Pastor's sermon at the 8 o'clock service Sunday night. Several who have accepted Christ are to be baptized, and some who are "almost persuaded" to believe in Christ will probably find in Him Sunday the answer to their deepest problems and accept Him as their Lord and Saviour.

Baptist Training Union meets at 8:45.

The attendance at the Vacation Bible school has exceeded expectations. The school will continue each morning next week. New pupils may still enroll. You are always welcome at First Baptist church.

## Believe Call Near

(Continued from Page One)

the defense forces into service. General Byrd said the "logical conclusion" was that most units of the National Guard would be sent first to Camp Joseph T. Robinson here.

In the event of general mobilization, he said, the 142nd Field Artillery would be ordered to Fort Riley, Kan., for range work. He explained there is no field range in Arkansas.

The 154th Observation Squadron, he added, may be sent to Adams Field in Little Rock.

"We maintain a check on all equipment daily," the general said. "The type of new material and equipment needed will depend on the nature of the president's call."

He said 30 state adjutant generals who observed the recent army maneuvers in Louisiana conferred at Alexandria and expressed opposition to any call for service that would extend less than 60 days, except in an emergency.

"We felt the call should be for a period longer than two months so that guardsmen could obtain definite leaves of absence from their work or colleges," he said.

Governor Bailey gave quick endorsement to the president's request for authority to call the guard.

"He should have that authority," he said. "All we are doing is getting

get word to sabotage that program.

If sabotage and propaganda fail to weaken our will and ability to defend ourselves, and if a totalitarian attack on us comes, then we shall experience total outbreaks, attempts to sabotage not alone factories, but railroad terminals, reservoirs, communications, that would pave the way for any attack the totalitarians might make.

As J. Edgar Hoover says: "These newly-allied destructionists stand for complete overthrow of all American institutions."

## "Fifth Column" Is

(Continued from Page One)

for totalitarian ends.

One such organization has agents in several large cities picking fights with Jewish storekeepers, dragging them onto the sidewalk and delivering orations to curious crowds about how the Jews want to get us into war. Another pays men two dollars a day to stir up race hatred by inflammatory remarks in public places.

The Black Shirt organization, long quite active here among our 2,000,000 Italian-born, is now openly agitating for Italy's entry into the war.

All these people are prepared to claim civil liberties that would be denied them in Germany, Russia or Italy. An ominous mountain of evidence piles up in Washington that the Communists and Nazis here are prepared to point their propaganda efforts against American democracy.

In Mexico, Reds and Browns are planning disorders after the election July 7, hoping to set up a totalitarian state or at least distract our attention and draw troops to the borders. Contact is made through a German organization in New York City.

Various organizations frankly anti-democratic get their propaganda introduced into the Congressional Record. They are trying to increase their representation in Congress and in the army, especially the national guard and the reserves.

The navy has taken special precautions to prevent another such outbreak of sabotage as damaged several cruisers just before Stalin became a "friend of democracy." His pact with Hitler has hampered Reds and Nazis here, but also it has helplessly gone, the remainder are a tough crew, well trained for the next phase and well placed.

Sabotage May Come Soon

Many Communists and Bundists are skilled workers in important industries. Forty were found in a single aircraft plant on the Pacific coast where 5000 are estimated to be employed. The first wreckings will take place on the west coast and in New England.

There will be slow-ups, strikes, various disorders.

This activity has been held back because the Communists considered allied war orders here not sufficiently important to risk angering Americans by blowing up plants. But now allied orders are increasing and so is American sentiment for aiding the allies, and our whole defense program is for protection from totalitarianism.

Any time now the fifth column, may

"The political and military power of Italy depends on the Mediterranean."

## Faded Old Paper May Be Duplicate Of Grant's Terms

LA GRANDE, Ore.—(P)—A long unopened book in Ed Rogers' collection revealed what may be a carbon copy of General U. S. Grant's terms of surrender to General Robert E. Lee at Appomattox courthouse, April 9, 1865.

The paper, apparently marked by duplication material, was faded and torn, hidden away for years in a second hand store book.

Library references say that General Horace Porter, Grant's aide-de-camp, penned a description of the surrender. Grant complied by using a manifold order book. The wording of the paper found by Rogers checked with Porter's version.

## Prison Policy

SAN QUENTIN, Calif.—(P)—Convicts in the huge state prison here play an unusual "policy" game which pays off in sacks of tobacco—gambling on which of California's 58 counties will supply the next "even numbered" inmate. Numbers date from the prison's founding in 1852, and the latest arrival to win a prize for a lucky player was No. 65,000.

Value of metals produced in Utah

in the last 75 years exceeds \$21,050,000,000.

## Keep Your Dirt, Says Young Hoover

TULSA, Okla.—(P)—Please don't send Herbert Hoover, Jr., any more buckets full of dirt.

He recently made a speech describing a new method of searching for oil pools.

Later, an oil company research director explained the method might mean: "If you go into your back yard and dig a pint of dirt it would be possible to determine whether you have an oil pool underneath."

By the time Hoover reached his office in Pasadena, Calif., there were hundreds of containers filled with soil.

Hoover says the new method has not been perfected, still is being studied.

## Docs Study Flying to Give Army Exams

SACRAMENTO, Calif.—(P)—Intensive aviation has brought a specialized field of medicine—that of the flight surgeon.

"We have to be practically pilots as well as physicians," says Col. Robert C. Murphy of the army air depot here. He explains that the examining doctor must understand the reactions of his patients to flight tactics as well as the handling of machine guns, bomb releases, etc.

Periodic examination of pilots is not only good for the men but is good business in protection of the government's heavy investment in planes, he says.

in the last 75 years exceeds \$21,050,000,000.
